Videos:

<https://tritechsc.ksd.org/cyber/assignments/videos/>

https://edpuzzle.com/join/*****

_ Week 8 Employability (3 * 5 = 15) (TIME LOG SPREADSHEET)

_ GRIT GOAL - Save in google drive. (Name_GRIT_GOAL) (Directions below)

Python basics. (Upload code to github.com github.com/*python)

_ function-demo.py (Watch <https://edpuzzle.com/>- Python3 Function Demo)

_ dec2hex.py (Watch <https://edpuzzle.com/>- Python3 Functions - Dec2Hex)

_ Wednesdays asynchronous video question. Dec2Hex <https://edpuzzle.com/>

_ nano basics.html -c (Create an html file on Rpi /var/www/html/basics.html)

Take a screenshot and upload to linux repository of nano editing

_ Minecraft Education : <https://education.minecraft.net/>

Screenshot you playing Minecraft Education using your ksd.org account

- Login with your ksd.org account or home school account and download
Minecraft Education . Screenshot a new world

Upload screenshot to github.com python repository.

Make sure to label the graphic accordingly.

_ Minecraft Education Group Game - Screen shot.

_ Minecraft Education - Extra - Hosting a Minecraft Education Game

_ Continue to work on Edhesive.com

_ Continue to work on Khanacademy.org

* * * * *

Python Code List:

asc2-a.py
forloop-1.py
asc2.py
dec-hex.py
Dec-bin.py
While-loop.py
functionDemo.py
dec2hex.py

* * * * *

Linux Bash networking:

_ Make sure to add bash-basics.txt to your gihub linux repos

<https://raw.githubusercontent.com/tritech-cyber/linux/main/bash-basics.txt>

* * * * *

GRIT_GOAL

Create a file in your google drive shared folder name Name_GRIT_GOAL

Answer the following questions:

What is grit?

My Goal is...

Reason I have this goal

What I will do to reach this goal

Tools I need to reach my goal

* * * * *

<https://khanacademy.org> (Register with any email.)

Add Craig.Coleman as your teacher. (ksd.org)

Start generating points. Extra credit available.

* * * * *

Upload PacketTracer assignments to Github.com/user/networking/cisco

_ PakcetTracer (Screenshot of all the routers and switches.)

_ PacketTracer 3 networks - <https://www.netacad.com/courses/packet-tracer>

Create a network with three networks: 172.*.*./24 , 192.*.*./24 and 10.*.*./24 . Use 1 to 3 routers and 3 switches. Use one computer for each network.
